

Material Safety Data Sheet

1. IDENTIFICATION OF MATERIAL AND SUPPLIER

PRODUCT NAME: APOLLO

Synonyms: None

Recommended Use: Wash & Wax

Supplier: Minehan Agencies Pty Ltd

Address: 29 Camuglia Street GARBUTT Townsville Queensland Australia 4814

Telephone: (07) 4774 4626

Facsimile: (07) 4774 4616

E-mail: inquiry@minehanagencies.com.au

Emergency telephone number: 0408 777 800 (24Hrs Australia)

2. HAZARDS IDENTIFICATION

This product is classified as:

Non Hazardous according to criteria of the National Occupational Health and Safety Commission (NOHSC).

Not Dangerous Goods according to the Australian Dangerous Goods Code (ADG Code).

| | |
|--|-----------------------|
| Approved Criteria Classification (Calculated). | Not Classified |
| SUSDP Classification | Not Scheduled |
| ADG Classification | Not Classified |
| Un Number | None allocated |

EMERGENCY OVERVIEW

| | |
|-----------------------------|--------------|
| COLOUR | Opaque White |
| PHYSICAL DESCRIPTION | LIQUID |
| ODOUR | Bubblegum |
| MAJOR HEALTH HAZARD | Nil |

POTENTIAL HEALTH EFFECTS

Inhalation: Short term exposure. Generated mists and sprays may irritate respiratory system. **Long term Exposure.** Mists and sprays may trigger pre-existing respiratory complaints.

Skin Contact: Short term exposure. Concentrate may cause dryness and irritation. **Long term exposure.** Prolonged exposure to the concentrate may cause irritation, redness and dermatitis. Dilute solutions are non-irritating.

Material Safety Data Sheet

Eye Contact: **Short term exposure.** Concentrate may be irritating. **Long-term exposure.** Prolonged contact may cause redness and itching.

Ingestion: **Short term exposure.** Headaches, nausea, and abdominal irritation may result. **Long-term exposure.** May produce diarrhoea and occasional vomiting.

Carcinogen Status

| | |
|-------|----------------|
| NOHSC | Not Classified |
| NTP | Not Classified |
| IARC | Not Classified |

3. FIRST AID MEASURES

Poison Information Centres in each State capital city can provide additional assistance for Scheduled Poisons: Phone (Australia 13 1126).

Inhalation: Remove victim from exposure. Remove contaminated clothing and loosen remaining clothing. Allow patient to assume most comfortable position and keep warm. If symptoms persist seek medical attention.

Skin Contact: Remove contaminated clothing. Wash contaminated skin for at least 15-20mins with of water, or until no evidence of the chemical remains. If swelling, redness, blistering, or irritation occurs seek medical advice. Wash clothing before re-use.

Eye Contact: Immediately irrigate with copious quantities of water for at least 15 minutes. Eyelids to be held open. If present, remove contact lenses. If symptoms persist seek medical attention.

Ingestion: Immediately rinse mouth with water. Do NOT induce vomiting. If symptoms persist seek medical attention.

Notes to Physician: Treat symptomatically. Suggest intubation BEFORE any emesis due to foaming properties of this product

4. FIRE FIGHTING MEASURES

Flash Point: Not a Flammable or Combustible liquid.

Fire and Explosion Hazard: Non-combustible material. Closed containers exposed to heat may explode.

Specific Hazards: None.

Fire Fighting: Move container from fire area if it can be done without risk. Avoid inhalation of material or combustion by-products. Stay upwind and keep out of low areas. **Suitable Extinguishing Media:** Not combustible, however, if material is involved in a major fire use water fog to keep drums cool. Use foam, CO₂ or dry chemical powder to extinguish surrounding fire.

Hazardous Decomposition in Products: On burning may emit fumes including carbon monoxide, carbon dioxide, and partially burned hydrocarbons. Fire fighters to wear self-contained breathing apparatus if risk of exposure to vapour or products of combustion.

Hazchem Code: None allocated.

Material Safety Data Sheet

5. ACCIDENTAL RELEASE MEASURES

Stop leak if possible without personal risk. **Small spills (< 5L)** Cover with an absorbent material (soil, sand or other inert material). Collect and seal in properly labelled containers for disposal. Hose down area with large amounts of water. Caution, Slip Hazard. **Large spills (>5L)** Prevent run off into drains and waterways. Dam material. Cover with absorbent material. Collect and seal in properly labelled containers for disposal. Hose down area with large amounts of water. Caution Slip hazard. Keep unnecessary people away, isolate hazard area and deny entry. If contamination of sewers or waterways has occurred, advise local emergency services.

6. HANDLING AND STORAGE

Store in a well-ventilated area. Store in a cool, dry place and out of direct sunlight. Store away from foodstuffs and strong acids. Store in original containers. Keep containers closed when not in use – check regularly for leaks. Handle using good industrial hygiene practices (see section 8 on personal protection).

7. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits: No value has been assigned for this specific material by NOHSC. However the following general limit is recommended.

| Ingredient | TWA | STEL | Notices |
|------------|---------|------|---------|
| General | 5000ppm | | |
| | | | |

TWA – the Time-Weighted Average airborne concentrations over an eight hour working day, for a five day week over an entire working life.

STEL (Short Term Exposure Limit) – the average airborne concentration over a 15 minute period which should not be exceeded at any time during a normal eight hour work day. According to current knowledge, these concentrations should neither impair the health of, nor cause undue discomfort to, nearly all workers.

Sk Notice – absorption through the skin may be a significant source of exposure. The exposure standard is invalidated if such contact should occur.

Sen Notice- Sensitiser. The substance can cause a specific immune response in some people. An affected individual may subsequently react to minute levels of that substance.

These exposure standards are guides to be used in the control of occupational health hazards. All atmospheric contamination should be kept to as low a level as is workable. Exposure standards should not be used as fine dividing lines between safe and dangerous concentrations of chemicals. They are not a measure of relative toxicity.

Biological Limit Value: No biological limit allocated

Engineering Controls: Ensure ventilation is adequate to maintain air concentrations below Exposure Standards and prevent exposure to vapours, mists and fumes. Use in well ventilated area. Keep containers closed when not in use.

Personal Protection Equipment

Respirator: Not required

Eye Protection: When handling the concentrate Safety glasses with side shields should be worn as described in Australian Standard AS/NZS 1337 – Eye Protectors for Industrial Applications.

Glove Type: Impervious PVC or rubber gloves should be worn when handling the concentrate.

Material Safety Data Sheet

Clothing: Not specific requirements.

Work/Hygienic Practices: Always wash hands before smoking, eating, drinking or using the toilet.

8. PHYSICAL AND CHEMICAL PROPERTIES

| | | | | |
|------------------|---------------------|--|----------------------|---------------------------|
| Physical State | Liquid | | Water Solubility | Soluble |
| Colour | Opaque White | | Vapour Pressure | Not Known |
| Odour | Bubblegum | | Vapour Density | Above 1 (air =1) |
| Boiling Point | >100 °C | | Evaporation Rate | Slower than butyl acetate |
| Melting Point | NA | | % Volatiles | 80% |
| Freezing Point | Not Known | | Flash Point | Not Flammable |
| Specific Gravity | 1.02g/ml (water =1) | | Flammability Limits | NA |
| Ph (neat) | 8-9 | | Ignition Temperature | NA |

9. STABILITY AND REACTIVITY

Reactivity: Stable at normal temperatures and pressure.

Conditions to Avoid: Avoid contact with incompatible materials.

Incompatibilities: Strong Oxidising Agents, Strong Acids,
Explosive reactions may occur with strong oxidising agents.
Violent heat producing reactions may occur with strong acids.

Hazardous Decomposition: Thermal decomposition products include, sulphur dioxide, carbon dioxide, carbon monoxide, and Nitrous oxides.

Polymerisation: Will not polymerise.

10. TOXICOLOGICAL INFORMATION

Apollo

Local Effects: Very Mild irritation: Inhalation, skin, eyes, and ingestion.

Target Organs: Kidneys and Liver.

11. ECOLOGICAL INFORMATION

General Statement: No single ingredient (over1%) recognised as an environmental pollutant.

Ecotoxicity: No specific information available for this product.

Persistence and Degradability: No specific information available for this product

Mobility: No specific information available for this product

Material Safety Data Sheet

12. DISPOSAL CONSIDERATIONS

Refer to State/Territory Land Waste Management Authority for disposal; show this MSDS for their consideration. Empty containers may be recycled after through cleaning with water. Dispose in accordance with local regulations.

13. TRANSPORTATION INFORMATION

| | |
|-----------------------------|----------------|
| UN No | None allocated |
| Proper Shipping Name | None allocated |
| ADG Code | None allocated |
| Sub Risk | None allocated |
| Packing Group | None allocated |
| Special Precautions | None |
| Hazchem Code | None allocated |
| EPG | None allocated |
| Segregations | No |

14. REGULATORY INFORMATION

SUSDP Classification: Not Scheduled.

AICS: All of the constituents of this material are listed on the ACIS.

15. OTHER INFORMATION

Issue Date: February 2010

Reason(s) For Issue: Initial.

Labelling Details

Although this product is neither hazardous nor dangerous the follow safety phrases are recommended.

S2 Keep out of reach of children.

S37 Wear Suitable gloves.

S44 If you feel unwell, contact a Doctor or Poisons Information Centre (show the label wherever possible).

Abbreviations & Acronyms

SUSPD: Standard for the Uniform Scheduling of Drugs and Poisons

ADG: Australian Code for the Transport of Dangerous Goods by Road and rail

N.O.S. Not Otherwise Specified

CAS No: Chemical Abstracts Service Registry Number

UN No: United Nations Number

R-Phrases: Risk Phrases

S-Phrases: Safety Phrases

HAZCHEM Code: Hazardous Chemical emergency action code

NOHSC: National Occupational Health and Safety Commission

IARC: International Agency for Research into Cancer

ACIS: Australian Inventory of Chemical Substances

NTP: National Toxicology Program (USA)

Disclaimer

This MSDS summarises at the date of issue our best knowledge of the health and safety hazard information of the product and in particular how to safely handle and use the product in the workplace.

Since Minehan Agencies Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this MSDS in the context of how the user intends to handle and use the product in the workplace i.e. a risk analysis.

If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact Minehan Agencies Pty Ltd.
