

CITRUS SEWER

LIFT STATION DEGREASER AND DEODORISER

DESCRIPTION

Minehan Agencies **CITRUS SEWER** is an environmentally safe, biodegradable cleaner and degreaser. Its natural citrus base allows for control of unpleasant odours in a variety of environments. **CITRUS SEWER** will break down grease, fat and slime.

APPLICATIONS

Sewage Plants, Pump Stations, Grease Traps, Boat Bilges, Sumps and Drains.

TECHNICAL DATA

FORM: Liquid	FLASH POINT: 43
ODOUR: Citrus	BOILING POINT: 176°C
COLOUR: Green	SOLUBILITY IN WATER: No
SPECIFIC GRAVITY: 0.90g/ml	DETERGENCY: Excellent
TOXICITY: Poison S5	%VOLATILE BY VOLUME: 100
WETTING ABILITY: Excellent	pH: N/A
STORAGE ABILITY: 1 year	VISCOSITY: Thin
STABILITY: Stable	EVAPORATION RATE: Slow
PHOSPHATES: Nil	BIODEGRADABILITY: Yes

DIRECTIONS FOR USE

DRAIN OPENER

Pour in 1.5 litres of Minehan Agencies **CITRUS SEWER**. Allow 30-60 minutes dwell time and then flush with water.

GREASE TRAP AND DRAIN MAINTENANCE

Pour in 1.5 litres of Minehan Agencies **CITRUS SEWER** with approximately 20 litres of water into the drain of trap. Allow to stand for 30-60 minutes and then flush with water.

GENERAL CLEANING AND DEGREASING

Dilute 1 part Minehan Agencies **CITRUS SEWER** with 20 parts of water. Apply to equipment, floors, walls and other soiled surfaces. Rinse with clean water. Use undiluted for difficult deposits of grease and carbon.

ODOUR CONTROL

Dilute 1 part Minehan Agencies **CITRUS SEWER** with 20-50 parts of water. Spray as a fine mist to odour causing areas.

SEWAGE PLANTS

Effectively controls odours in dilution as low as 1 litre of Minehan Agencies **CITRUS SEWER** per million litres of effluent. Apply directly or with drip feeder.

Minehan Agencies **CITRUS SEWER** reduces grease and slime build up in sewage equipment without effecting bacterial activity.
