

DERMA KOTE

INVISIBLE SKIN PROTECTION

DESCRIPTION

DERMA KOTE protects your skin against corrosive products such as detergents, acids, alkalis, solvents and grease for up to four hours. **DERMA KOTE** is non-toxic, non-greasy and anti-allergenic which allows skin to breathe and perspire normally. It withstands repeated washing and helps protect against rashes, skin allergies, raw and cracked skin.

APPLICATIONS

For use by Industrial and Municipal users.

Applied to the skin approximately every 3-4 hours to reduce skin irritation.

TECHNICAL DATA

FORM: Cream
ODOUR: Fresh
COLOUR: White
DETERGENCY: Low
TOXICITY: Low
WETTING ABILITY: Low
STORAGE ABILITY: 1 year +
COLD STABILITY: Good
PHOSPHATES: Nil

FLASH POINT: Not combustible
FLAME EXTENSION: N/A
SOLUBILITY IN WATER: Nil
SPECIFIC GRAVITY: 1.0g/ml
%VOLATILE BY VOLUME: Nil
pH: 6-8
PROPELLANT: Nil
EVAPORATION RATE: Nil
BIODEGRADABILITY: Yes

DIRECTIONS FOR USE

Wash and dry hands (or other parts of the skin) before applying.

Apply a 'golf ball size' amount in palm of hand. Spread evenly over skin, under nails and in skin creases, until dry.

Once skin has dried, protection will last up to four hours (natural perspiration through skin removes **DERMA KOTE** film after approximately four hours).
